Dear Warren

Re: Letter of Endorsement – Do More Foundation

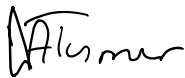

We represent the Durban offices of Eversheds Sutherland. We are a global law firm with offices in Africa, the United States, Europe, the Middle East and Asia.

We are proud to provide legal and other support to the Do More Foundation. Our global purpose is described as “helping our clients, our people and our communities to thrive”. Our endorsement and support of the Do More Foundation aligns fully with this purpose.

In particular, we endorse and support the participation of the Do More Foundation in Lego’s Build a World of Play challenge, and with your proposal that “Everyone gets to play”. The focus of the Do More Foundation on early childhood development puts young children at the centre of development and this is consistent with the aim of the Lego competition.

We believe that our support and that of other organisations of this model will have a multiplier effect on the benefits of the Lego award.

Yours sincerely

Andrew Turner
