VECTOR ENDORSES THE DO MORE FOUNDATION'S "BUILD A WORLD OF PLAY" SUBMISSION

Vector is a supply chain company specialising in sales, warehousing and distribution of frozen and chilled product to the retail and foodservice industry throughout Southern Africa, including Namibia, Botswana and Zambia. Our fully integrated, temperature controlled network is serviced by over 6000 employees, a fleet of over 500 vehicles operating from 29 sites, underpinned by best of breed technology.

In a time of rapid transformation and the socio-economic challenges which our communities face, the only way to remain industry leaders and effect change is through innovation and collaboration. In this regard, Vector is a proud partner of DO MORE FOUNDATION and we are aware that they are raising their hands to Lego's Build a World of Play challenge with their proposal that "Everyone gets to play" as this talks to our beliefs and values. "Everyone gets to play" being a collective impact model leveraging corporate-public partnerships toward sustainable implementation of the National Integrated ECD Policy in South Africa. Using the National Integrated Early Childhood Development Policy (2015) as their road map for scale.

Vector would like to endorse the DO MORE FOUNDATION's proof of concept and vision that "everyone should play and young children should be a priority". Vector supports the DO MORE FOUNDATION and is committed to continue to assist the Foundation by leveraging its influence to change things for young children in SA and to enable the Foundation to further assist communities across SA. We believe that our support of their model will ensure a multiplier effect to the Lego award.

Yours sincerely,

CHRIS CREED
MANAGING DIRECTOR
